

PHARMACEUTICAL COMPOSITIONS PROVIDING  
ENHANCED DRUG CONCENTRATIONS

ABSTRACT OF THE DISCLOSURE

5           A drug in a solubility-improved form is  
combined with a concentration-enhancing polymer in a  
sufficient amount so that the combination provides  
substantially enhanced drug concentration in a use  
environment relative to a control comprising the same  
10 amount of the same solubility-improved form of drug  
without the concentration-enhancing polymer.
